ALEX HALL / BASIC INFORMATION

Alex Hall is a beautifully restored original farm building from the early 20th century. Reconstruction in 2018 preserved the original unique architecture with the acknowledgment of brick walls and a massive interior wooden structure. However, an elegant wooden floor with a dance floor and stone tiles along the edges of the room have been added.

The entrance to the building is through the original sliding wooden door, which also offers a pleasant view of the grassy area in front of the building. The atmosphere of the halls is completed on the opposite side by a glass door offering a view of Bratislava Castle and the natural scenery of fields and mountains. There is a covered seating area under the roof, a smoking area and separate wheelchair accessible toilets with a changing area.

During the reconstruction, the most modern technologies were installed in the hall - a jumbo folding-screen, a high-resolution overhead projector and a unique sound system offering the highest possible standard of sound experience with the possibility of connecting to external sources. The lighting setups of the space were created with a respect to the majestic wooden structure and brick walls.

Alex Hall provides an ideal venue for weddings, balls and family celebrations or corporate parties, that are looking for a romantic farm environment for their guests, away from the hustle and bustle of the city, which is in sight and yet far away.

The property of the Karolinenhof Farm offers more than 25 free parking lots for our guests in a convenient and safe environment.

Dimensions of the hall:	22m x 22m
Dancing parquet:	16m x 10m/ 160m ²
Height of the ceiling:	7,5m
Entrance:	4,2m x 3,9m (W x H)
Capacity:	up to 200 person
